

DANCE STUDIO - SAFETY PLAN : note we will update safety plan as needed

- 1) Dancers should wait where marks are indicated until a teacher comes to get them.
- 2) Staff will bring dancers in 1 at a time.
NO parents - the waiting room is CLOSED
- 3) Dancers must come dressed ready for class
When entering we will take dancers temperatures and ask about their health
As dancers enter they must use the hand sanitizer.
Dancers must bring their own water bottles
Masks are strongly recommended as per PHO guidelines
- 4) If washroom is used - there will be disinfectant and sanitizer on site as well as soap for hand washing
- 5) Classes will end about 5 mins early so teachers can sanitize high touch surfaces between each new set of dancers entering the studio.
- 6) At the end of a class the teacher will exit dancers 1 at a time.

Our top priority is to keep everyone as safe as possible, while allowing dancers to stay connected & keep dancing!!
